Heroin Trafficking - Trends

Latest Trends

In Drug Trafficking

Heroin and hashish are the two main drugs which are being trafficked to the world markets, especially Europe and USA. Heroin smuggling is more lucrative because of high profit rates. The traffickers use highly innovative but innocuous looking methods for concealment of heroin.

In the succeeding pages some of the more uncommon but innovative concealment methods are shown to familiarize the law enforcement officers for effective interdiction.

Heroin Concealed in Flour Mills

30 kgs heroin was found concealed into ten cemented flour mills. Heroin was wrapped in polythene bags and was hidden inside flour stone.

Heroin Concealed in Laptop

1.350 kgs heroin was concealed behind the screen monitor of a laptop computer and its charger. Interestingly, the computer was functional when it was intercepted.

Heroin Concealed in Cosmetics

860 grams heroin concealed in different cosmetic items and dry batteries was recovered.

Heroin Concealed in Kneading Machine

A passenger carrying flour Kneader was intercepted and 3 kgs heroin was recovered from the false cavities of the machine.

Heroin Concealed in Sweet Box

Fifty three capsules containing 500 grams heroin were mixed with sweets which were destined to Uganda.

Heroin Concealed in Suitcases

Concealment of heroin in different cavities of suitcases. A total of fifty one cases were detected and 139 Kgs heroin was seized from suitcases during year 2007.

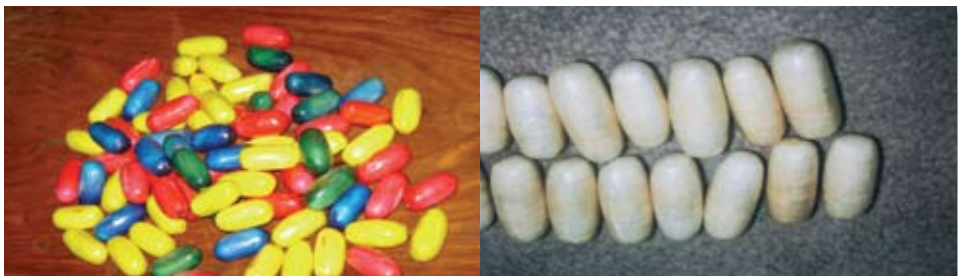

Heroin Concealed in Hair Clips

1 kgs and 7 kgs heroin was recovered in two different cases but of similar nature. In both cases, heroin was concealed in hair clips.

Heroin Filled Capsules

Like previous years, ingested heroin filled capsules remained the most common method of heroin trafficking and about 106 kgs heroin was recovered from capsules in One hundred and twenty five different cases.

Heroin Concealed in Pistons

4 kgs heroin was recovered from pistons of vehicle at Peshawar. A total of nine pistons were recovered from three different cartons, which all contained heroin filled polythene bags.

Heroin Concealed in Mangoes

52 kgs of heroin was tactfully concealed in the bases of cartons. Each carton had four to five mangoes. The consignment was intercepted at cargo office Islamabad Airport, which was destined to South Africa.

Heroin Concealed in Tin Packs

An African was apprehended at Faisalabad Airport with 6.5 kgs heroin. Heroin filled capsules were mixed with ordinary capsules in thirty tins, which were labeled as "Oxytetracycline dehydrate".

Cocaine in Rugs

4.5 kgs Cocaine soaked in woolen tapestries was seized at Allama Iqbal International Airport Lahore, which had arrived from Lima, Peru.

Hashish in Motor Oil Tin

52 Kgs hashish was recovered from sixteen gallons of motor oil at Peshawar.

Heroin Concealed in Walnuts

Three sacks of walnuts, each sack weighing approximately 40 kgs were seized at Peshawar. Search revealed some walnuts in only one of the sack had heroin wrapped in small polythene bags very carefully concealed inside the walnut. 1.360 kgs of heroin was recovered from the walnuts.

Heroin Concealed in Dinner Set

A dinner set was intercepted at Lahore which had 580 grams of heroin concealed in the base of plates.

Heroin Wrapped around the Legs

A passenger at Lahore Airport was arrested who had 3 kgs of heroin wrapped around his legs and covered with medical dressing.

Review Report

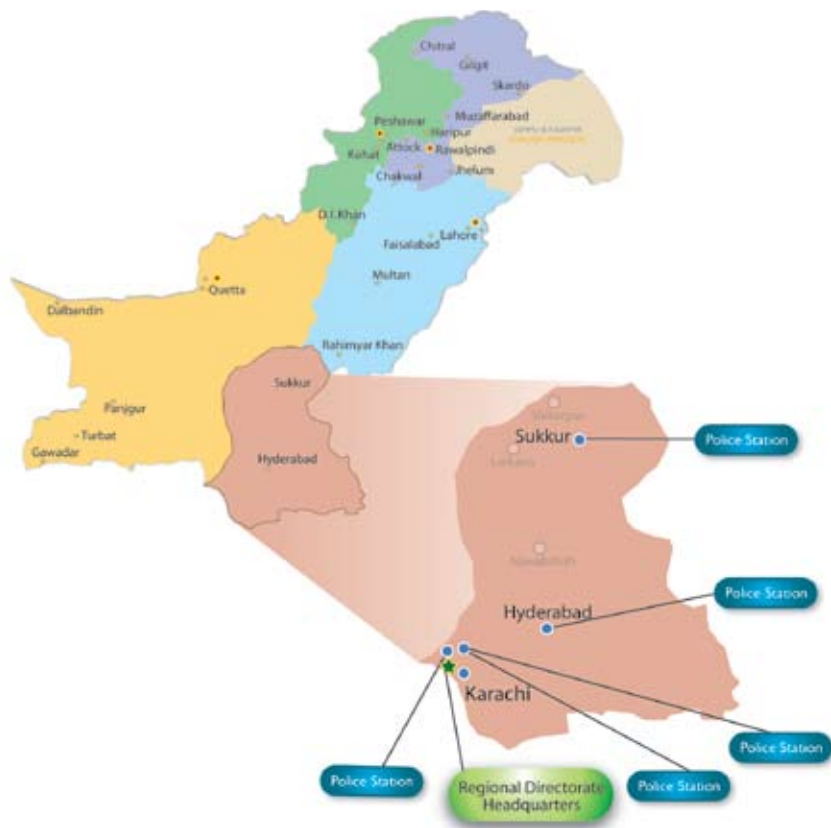

RD Karachi

Review Report RD Karachi

Sindh has the proud privilege of being the first recipient of Islam in South Asia. Its cultural heritage, therefore, depicts the tenants of Islam. After independence, Sindhi literature has been enriched with new ideas taken from Urdu and Sindhi. In Sindh, people from northern and southern India have also been settled after independence which is the cause of diversity in culture.

The province of Sindh derives its name from River Sindhu, the Indus. The total area of Sindh is 140,914 Sq Km. The Sindh plain comprises mainly the province of Sindh. It is a huge piece of land stretched in between the Arabian Sea and the Punjab plain. River Indus flows through these plains. Towards the East of the River is a sandy belt stretching right from Bahawalpur to the Rann of Katch known as the Thar Desert. Indus River terminates in the deltaic area of Thatta District. According to the preliminary results of the 1998 census, the population of Sindh is approximately 30 million out of which 45% is urban and 55% is rural.

Assets Investigation

The Assets Investigation branch started functioning in 1994 in light of the government's decision to initiate assets investigation against drug barons, who had acquired the assets/properties through drug proceeds. Earlier this agency was only making efforts to curb the drug smuggling and arrest the drug barons. Initially no separate assets branch was set up, however some assets investigation was carried out by the intelligence branch. Presently assets investigation is being carried out as a special task and drug smugglers who have acquired assets through drug proceeds are being put behind the bar. Special attention is being extended to the prosecution of assets cases, so that the forfeiture may be achieved in most cases.

Hajj Operation

Hajj operation 2007 commenced on 13 Nov 2007 and was completed on 14 Dec 2007. ANF deputed four detachments, at Hajji Camp Karachi, Hajj Terminal-III Karachi and at Sukkur Airport. During this operation, 163 flights consisting 48,281 passengers destined to Saudi Arabia were checked. Necessary coordination with all Agencies and Hajj Directorate was made well before commencement of operation for smooth functioning. Special emphasis was given to ensure smooth and uninterrupted flow of pilgrims for Hajj, and the highlights of the operation were:-

- Banners containing anti drug messages were displayed at Hajj terminal and Hajji camp Karachi.
- PTV and other private channel were approached to contribute by telecasting special programmes against drug abuse and trafficking besides other aspects of Hajj.
- Leaflets/booklets and pamphlets, containing guidance for pilgrims on drug awareness and repercussions of drug trafficking were distributed.
- Special announcements on public address system, were made against drug smuggling highlighting death penalty in Saudi Arabia.
- Stickers were pasted on each piece of baggage which were signed both by ANF and Custom staff to confirm thorough checking of luggage.

Due to strict vigilance and efforts made by ANF and other agencies, no drug case was detected at Karachi and Sukkur Airports.

Review Report

RD Lahore

Review Report RD Lahore

Regional Directorate Punjab has earned a reputation for diligence and efficiency in enforcement, assets investigation, prosecution and drug demand reduction activities. In the year 2007 professional, dedicated, concentrated and resolute efforts were made by all officers and officials of this Regional Directorate to achieve the desired ends of the organization. These efforts have borne fruit as numerous success stories have been accredited to the staff of the Regional Directorate. Regional Directorate Punjab was also entrusted the responsibility of imparting training to the new intake of field staff in the department which was undertaken with diligence and professionalism. Each trained cadet has added to the assets of the force.

Hajj Operation:

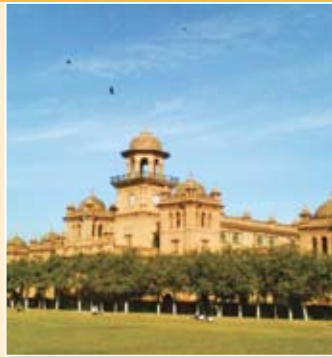

Comprehensive awareness campaign was launched during Hajj operation, which produced excellent results. Hajj operation started in Punjab from November 13 and concluded on December 14. In the year 2007, 137 PIA flights were operated from Lahore, Multan and Faisalabad simultaneously, in which 40406 pilgrims traveled. The pilgrims who traveled through Saudi Airlines flights were 4955 in number, operated from Allama Iqbal International Airport Lahore. Following awareness activities were undertaken:

- Banners against drug trafficking to Saudi Arabia were displayed at Haji Camp, Haji Terminal and International Departure Lounge, for creating awareness among the pilgrims.
- Mega size posters showing death punishment for using and trafficking drugs in Saudi Arabia were fixed in Haji Camp, Haji Terminal, International Departure Lounge and living rooms of pilgrims at Haji Camp Lahore.
- Hand bills carrying instructions and cautions against illegal trafficking of drugs were distributed among pilgrims.
- Announcements were regularly made through Public Address System at Haji Camp cautioning the pilgrims about illegal trafficking of drugs.
- To deter potential drug traffickers, a large hoarding board showing death punishment in Saudi Arabia was fixed at the main gate of Haji camp.
- Wall chalking on the outer wall of Haji camp with slogans against drug trafficking to Saudi Arabia, was done.
- Stickers with anti drug slogans were pasted on each piece of baggage.
- Movies showing consequences of drug trafficking to Kingdom of Saudi Arabia were screened in departure lounge for every Hajj flight.
- Frequent announcements against drug trafficking were made through a mobile Van in Lahore city to create awareness among pilgrims. The Van also displayed banners with anti drug slogans.

Drug Demand Reduction Activities

Review Report

RD Peshawar

Review Report RD Peshawar

Regional Directorate North West Frontier Province (NWFP) has earned a reputation for diligence and efficiency. An objective assessment of the results produced in various fields such as Interdiction, Prosecution, Demand Reduction and Assets Investigation/Forfeiture etcetera are a testimony to the organization's result oriented performance. However, there is a definite need to step up efforts to produce better results in the year 2008.

North West Frontier Province (NWFP) is a hard hit province vulnerable to narco-trade due to its geographical position and rough terrain. The tribal belt provides a safe haven to the drug smugglers resulting in drug trafficking to the settled districts of NWFP, Punjab, Sindh and abroad. Heroin is smuggled from Afghanistan while hashish is produced locally. Ever since the deployment of Army and Frontier Corps on Pak - Afghan border for surveillance and security duties, the flow of heroin trafficking from Afghanistan has reduced to an extent. However, the border being long and porous has many unfrequented routes through the rugged mountainous areas which are used by the smugglers.

Assets Investigation

The assets branch plays a vital role in seizing property acquired through drug proceeds. Action is taken under the legal provisions of the Prevention of Smuggling Act 1977 or the Control of Narcotics Substances Act 1977. Moreover the Regional Directorate ANF Peshawar also assists other Regional Directorates in conducting assets inquiries against individuals belonging to NWFP.

The Assets Branch of Regional Directorate, NWFP vigorously pursued the pending assets inquiries and took up the cases to freeze the traced assets of drug barons. Due to the efforts of the Assets Branch, assets worth approximately 70 millions rupees were frozen in three high profile cases.

Poppy Cultivation and Destruction:

Historically poppy crop was grown in Pakistan for a long time before partition. However, production of opium from poppy growing areas in Pakistan ranged from 200 to 250 tons around 1947. The traditional poppy growing areas were Dir, Buner, Swat, Swabi, Haripur and Kala Dhaka in NWFP and Bajaur, Mohmand and Khyber Agencies in FATA. Initially poppy was grown only in traditional areas which were also brought down to zero level in 2000/2001 through various incentives and stringent administrative measures. After the fall of Taliban, in year 2002/2003 resurgence of poppy was seen not only in traditional poppy growing areas but was also introduced in non-traditional poppy growing areas namely district Kohistan, de facto areas of Peshawar and Charsadda districts, tribal areas, Kurram, Orakzai, North and South Waziristan Agencies.

Reasons for Resurgence

- Delayed execution of development works already promised and disruption in flow of aid/grants.
- Growing interest of Afghans in the area due to internal strife in Afghanistan.
- Commitment of law enforcement agencies in counter terrorism operations i.e. shift in focus from anti narcotics to anti terrorism.
- Drought like condition (for alternative crops).
- Decree passed by local clerics in favour of poppy growers.

The following tables reflect the state of poppy cultivation and destruction during the year 2006/2007.

Poppy Cultivation/Destruction – 2006/2007

The Drug Demand Reduction section of ANF NWFP remained very active during 2007 and carried out various other activities for drug abuse prevention, treatment and rehabilitation:-

- ANF NWFP carried out a programme to educate Teachers and Students against Drug Abuse in 73 Government & Private High Schools of districts Abbottabad and Kohat. Total 8300 students and 272 teachers directly benefited from this programme.
- A seminar was organized by ANF at Khushal Khan Library Akora Khattak to educate nazims, teachers and students of district Nowshera against Drug Abuse.

- A seminar was arranged by ANF for community representatives of district Mardan. More than 200 community leaders attended this seminar.
- Anti Narcotics Force NWFP organized a four days All NWFP ANF Volleyball tournament at Bannu.
- A Cricket Tournament was organized by Anti Narcotics Force NWFP at Tatara Ground Landi Kotal, Khyber Agency. 26 x teams from all over Khyber agency participated in the tournament. ANF messages were communicated to masses through running commentary and banners displayed around the ground.
- Mass Awareness Against drug abuse through cycle rally from Balochistan to Peshawar and then Rawalpindi was arranged by ANF & Roshan Mustaqbal Social Welfare Cycling Society Balochistan. The cyclists visited different parts of NWFP and conveyed anti drug messages to the people.
- Anti Narcotics Force arranged a District level speech competition at Mardan for the students of class 9 and 10 of Tehsil Mardan and Takhtbai.
- Three days Provincial Table Tennis Tournament was organized. 150 players from Peshawar district and total 200 players participated from all over the NWFP.
- One day seminar and a unique Happy Funeral (Cigarette Burial Ceremony) was arranged at Bannu. Funeral ceremony was arranged in a traditional manner, to attract local population.
- Mr & Mr Junior Pakistan National Body Building Contest 2007 was arranged at Peshawar. More than 200 body builders from NWFP, Punjab, Sindh, Balochistan, Army, Navy, Police, WAPDA, Railway and FATA participated in the event. Anti Drug Abuse messages were displayed.

Hajj Operation 2007

The Hajj Operation 2007 commenced on November 11 and terminated on December 15. Total 23876 Hajj pilgrims were airlifted from Peshawar International Airport during Hajj session 2007. Vigilance of ANF staff and other related agencies contributed positively towards drug free flights to Saudi Arabia during Hajj operation 2007. Awareness regarding narcotics trafficking was widely created by displaying Panaflex banners both inside & outside the Hajj complex, Peshawar city & cantonment and en route Hajj Complex. Booklets and key chains were distributed among the pilgrims. Anti drug messages were announced in Urdu and Pushto, at Hajj complex, to create awareness among pilgrims.

Model Addicts Treatment and Rehabilitation Centre (MATRC) Quetta:

The Model Addicts Treatment and Rehabilitation Centre (MATRC) was established and on 30 June 2005. Patients' admission started on 18 Oct 2005. During year 2007, a total of 531 patients including relapse cases have been admitted and treated. Addicts admitted are given treatment and subsequently rehabilitated into the family, work place and society as productive citizens. MATRC Quetta has also coordinated with four NGOs and is using them as Out Reach Centres. In the fold of rehabilitation of addicts, it has already established stitching and washing units within the premises of MATRC.

Hajj Operation:

Every year, the Hajj operation is planned quite deliberately which comprises three main tasks i.e. preventive action (education of pilgrims), assertive action (physical check) and surveillance (a discrete over watch to pick up/identify any possible attempt to smuggle narcotics). During the year 2007, a total of 55 Hajj Flights originated from Quetta International Airport on which 10,762 pilgrims proceeded for Hajj. With the deployment of 43 officers/officials round the clock during Hajj Flight period, checking of these pilgrims and their belongings/baggage was done. By the Grace of Almighty Allah, RD ANF Quetta has proved its professionalism, worthiness and effectiveness, as no pilgrim proceeding from Quetta International Airport has been apprehended by Saudi authorities for carrying any narcotics substance.

Following awareness activities were undertaken:-

- Banners against drug abuse and trafficking were displayed at Hajji Camp and Hajj Terminal.
- Announcements were regularly made through public address system at Hajji Camp and Hajj Terminal warning the pilgrims about consequences of drug abuse and trafficking in Saudi Arabia.
- Stickers were printed with anti drug slogans and pasted on each piece of baggage.

Drug Demand Reduction Activities

Review Report

RD Rawalpindi

Review Report RD Rawalpindi

Like a number of other countries of the world, Pakistan is also a victim of the ever swelling drug threat. Pakistan's proximity to Afghanistan, which is acting as back office of drugs and narcotics in the region, is the main source of concern. The porous and volatile Pak-Afghan border, which is being crossed over by drug-laden gangsters, is multiplying the number of drug addicts in the country. In collaboration with the international community, the Government of Pakistan has intensified efforts to combat the menace of drug abuse and trafficking. Anti Narcotics Force (ANF) is the main instrument of the government in this regard. Regional Directorate ANF Rawalpindi is a potent segment of ANF which has heretofore seen a lot of success on the way of fighting the drug monster. It has been instrumental in gearing up anti-drug drive due to which public awareness on the subject is increasing manifold.

Prosecutions

Strong and effective prosecution brings high rate of convictions. Regional Directorate ANF Rawalpindi vigorously pursued the drug cases. A large number of punishments were awarded to drug barons. Moreover, Regional Directorate ANF Rawalpindi also appealed in numerous cases in the High Court against the decisions of lower courts and sought exemplary punishments for the accused persons. The following tables present the state of prosecutions and punishments during 2007:

Prosecutions	
Cases Decided	118
Cases Convicted	118
Persons Convicted	168
Persons Acquitted	4
Cases Acquitted	1

Punishments	
Less than 2 years	89
2-5 years	60
5-10 years	9
10-15 years	5
15 years and above	-
Life imprisonment	1
Death Penalty	1
Acquitted persons for convicted cases	3
Total	168

Assets Investigations

Probes and enquiries were conducted against the drug traffickers to estimate their assets derived through drugs proceeds. A number of enquiries are in progress. Whenever a drug baron is suspected to have accumulated assets through drug proceeds, he is booked under the provisions laid down in "Prevention of Smuggling Act 1977" or "Control of Narcotics Substances Act 1977". During the year 2007 the assets worth Rupees.8954150/- in two cases were traced and frozen while five cases are under investigation.

Drug Demand Reduction Activities

Drug demand and consumption is on the increase in the country. Bearing the same fact in mind, Regional Directorate ANF Rawalpindi has always tried to reach the root cause of the problem. The Directorate organised various activities in collaboration with active segments of the society including NGOs, to inculcate healthy and positive habits in Pakistani youth.

The following table presents a summary of the meetings, events and activities held at Regional Directorate Rawalpindi during 2007

Date	Meeting/Events/Activities

Hajj Operation- 2007:

Hajj Operation was conducted at Hajj Complex Rawalpindi and Islamabad International Airport from 14 Nov 07 to 16 Dec 07. A total of 32164 pilgrims departed from Islamabad in 61 Pakistan International Airlines and 27 Saudi Arabian Airlines Flights. All underwent detailed and deliberate check/search by ANF staff, in collaboration with CAA, Customs, PIA and ASF. Necessary measures were taken at Hajj Complex as well as the Airport to prevent flow of narcotics to Kingdom of Saudi Arabia (KSA) through Hajj Flights. The effort bore fruit as not a single case of drug trafficking was reported at the destination airports i.e Jeddah and Madina. In addition to active search and scrutiny operations, passive measures such as distribution of pamphlets and leaflets etc amongst pilgrims were adopted in order to discourage narcotics trafficking through Hajj Flights. Messages against narcotics were regularly communicated through loud speakers and video screens installed in the Hajj Complex Rawalpindi.

Drug Demand Reduction Activities

Review Report SIC

The lucrative incentives, associated with the narco-trade are the major reason drug traffickers continue to operate, despite stringent laws that prescribe severe punishments including death penalty in many countries. The Special Investigation Cell (SIC) is well aware of the never-ending war against drugs, hence the struggle continues.

Interdiction of narcotic substances is becoming a complex affair, as drug gangs have gone extremely cautious, owing to successes achieved by Law Enforcement Agencies in recent years. The criminal groups have international linkages, which makes it quite cumbersome for the agencies to effectively fight off the drug trafficking activities of networks woven beyond the geographical limits of countries. Adopting new methodologies and innovation in drug trafficking, necessitates countering this menace beyond orthodox approach. Thus developing and learning new awareness / techniques is mandatory under prevalent circumstances.

The Special Investigation Cell (SIC) constantly engages itself in improving its expertise and developing the capacities of its functionaries to intervene the flow of drugs not only within the country but internationally as well. In neck to neck race with drug trafficking organizations, the department appears to be a step ahead. Its remarkable interdiction record over the years speaks clearly about its success.

Drug Law Enforcement Activities

Summary of Arrests	
Cases Registered	67
Persons Arrested	123
Pakistanis	100
Foreigners	23

Major Seizures.

On January 13, Special Investigation Cell (SIC) in collaboration with Regional Directorate ANF Peshawar, intercepted a motor car at Peshawar. Upon thorough search of the vehicle **473 kilograms of hashish and 8 kilograms of opium** were recovered from the specially made secret cavities in the car. The driver of the car was arrested.

On March 19, on information received for smuggling of heroin, from Islamabad to Gujrat, a team of Special Investigation Cell (SIC) was constituted in collaboration with the Regional Directorate ANF Lahore which led to the arrest of one person along with **30 kilograms of heroin**.

On May 16, Special Investigation Cell (SIC), assisted by the Regional Directorate ANF Peshawar, intercepted a car at Peshawar-Kohat Road and recovered **15 kilograms of heroin**. The recovered drug was skillfully concealed under the rear seat of the car. One person was arrested on the spot.

On June 4, Special Investigation Cell (SIC), in conjunction with the Regional Directorate ANF Peshawar, intercepted a person at Peshawar International Airport. The accused was scheduled to fly by Qatar Airlines from Peshawar to Amsterdam via Doha, Qatar. Search of the accused person's luggage led to recovery of **8 kilograms of heroin**, tactfully concealed in a suitcase. The accused person was arrested on the spot.

On receiving information that drug traffickers intend to smuggle a shipment of hashish, purchased from Bara, Khyber Agency, the Special Investigation Cell (SIC) went on a high alert. Though it was a cumbersome task to locate the criminals but following the prevailing operational practices, effective ground checks were carried out and the individuals involved in drug trafficking were identified. On June 9, Special Investigation Cell (SIC), assisted by Police Station ANF Sukkur conducted a raid and recovered **385 kilograms of hashish** along with arrest of two persons, who were involved in drug business since long.

Special Investigation Cell (SIC), Quetta received information that a huge quantity of drugs would be transported through bus from Quetta to Turbat. Acting upon the information the bus was identified and a discreet surveillance was carried out. The persons transporting the drug, were also kept under constant observation. On July 18 the suspected bus moved from Quetta to Lakkh Pass for its final destination towards Turbat. The bus was intercepted and a thorough search led to the recovery of **298.000 kilograms of opium**. Two accused persons were arrested while the accused supplier went underground. The proclaimed offender was ultimately arrested on September 7 after a hectic effort.

On August 14, Special Investigation Cell (SIC), in collaboration with the Regional Directorate ANF Peshawar, intercepted a jeep and recovered **242 kilograms of hashish and 29 kilograms of opium**. The recovered drugs were skillfully concealed in the specially made secret cavities of the seized vehicle. Apart from the drugs 1 pistol (30 bore) with 2 magazines and 50 rounds were also recovered. Three persons traveling in the jeep were also arrested.

On September 27, Special Investigation Cell (SIC), in conjunction with the Regional Directorate ANF Rawalpindi, intercepted a motor car, bearing a fake registration number and recovered **55 kilograms of heroin**. Four accused persons traveling in the car were also arrested. It is worth mentioning that during this operation the organizer, carrier and mastermind were arrested. This racket had links in UK and Canada and the seized heroin was to be smuggled to these countries for distribution and sale.

On September 29, Special Investigation Cell (SIC), conducted a raid at Karachi, arrested four members of a racket and recovered **1 kilogram of heroin and 35 grams of cocaine**. Simultaneously a raid was conducted in Lahore and the remaining three members of this gang, including a West African were arrested. It is noteworthy that in this operation, although the quantity of drugs seized was small but an entire drug gang, comprising the mastermind, organizer, carriers, distributors and foreign associates were arrested.

Special Investigation Cell (SIC), received information about a kingpin of a drug trafficking organization (DTO), reaching Islamabad for dispatch of **a huge quantity of drugs** to the United Kingdom. Mastermind / organizer of this racket had employed and engaged his trusted associates as facilitators. After the identification of the members of this gang a raid was conducted

On October 25 at a farm house, near Turnol, Islamabad, where an iron door was confiscated. This specially prepared iron door was cut and **43 kilograms fine quality heroin** was recovered from its cavities. The entire seven-member drug gang was arrested. During the course of investigation it was revealed that two Irish nationals visited Pakistan and advised the mastermind / organizer of this racket on the concealment method of drugs. It also transpired that the Irish people were member of a notorious armed gang back home and also had the responsibility of distribution / sale of the seized drugs in Ireland and UK.

Use of cocaine in Pakistan is on the rise. This drug, being very expensive, is used by affluent and elite class in the country. Special Investigation Cell (SIC), has not been oblivious of the situation and has tracked down many cocaine traffickers. Acting on information on March 8 Special Investigation Cell (SIC), in collaboration with the staff of Regional Directorate ANF Rawalpindi, conducted a raid and arrested two accused persons. Upon search of the accused **1 kilogram of cocaine** was recovered from their possession.

Controlled Delivery Operations

Special Investigation Cell (SIC), in collaboration with the Law Enforcement Agencies of other countries targets high value traffickers, whenever an opportunity arises. The idea is to arrest the entire gang including mastermind / organizers of drug mafia.

A controlled delivery operation, theoretically speaking, is a pre-emptive measure to reduce drug smuggling. Special Investigation Cell (SIC), with its designed efforts has broken into networks of several drug cartels and nabbed many notorious traffickers.

The summary of controlled delivery operations carried out in 2007 is given in the table below.

Date	Country	Arrests	Recovery
January 30	China	3	5 kgs heroin
March 20	China	3	5 kgs heroin
May 9	USA	1	5 kgs heroin
June 14	Germany	3	1 000 kgs hashish
June 29	Maldives	2	8 kgs heroin
July 29	South Africa	1	3 kgs heroin
August 15	Spain	Nil	450 kgs hashish
September 2	Saudi Arabia	1	5 12 kgs hashish
October 4	Malaysia	5	2 kgs heroin

Bayer CropScience: a new world leader in crop solutions

Christopher Rutherford, Newark UK.
Sugar beet and cereal farmer,
440 hectares. Interested in Ancient
History.

Aitor Temquand, Rio Paraiso Rio Grande,
Do Sul, Brazil. Soybean farmer,
500 hectares. Interested in playing football,
meeting friends and fishing.

Qazi Abdul Razzaq, Multan, Pakistan.
Cotton and wheat farmer,
200 hectares. Interested in farming and
hunting.

Even adjacent farms have their differences: one may lie in a frost pocket, drainage or soil may vary resulting in different weeds or infestation problems. But no matter how they vary and whether they grow cereals, rice or tomatoes there is now a new company that can provide an equally wide range of products and services.

That company is Bayer CropScience. Bayer, pioneers in crop protection since 1892, have acquired Aventis CropScience, leaders in Crop Protection, BioScience and Environmental Science. Together, we offer probably the world's most comprehensive list of agricultural products. Plus we have the resources to offer the best in emergent chemistry, biotechnology and seeds.

But for these innovations and advances to be relevant, and be offered in the most appropriate and applicable form, we need to work in close collaboration with our customers. These relationships are essential if we as a company are to provide what the farming community needs most: new solutions to age-old problems.

An approach that reinforces the farmer's confidence in our leading market position – in Pakistan and around the world.

YOUR PARTNER FOR GROWTH

Bayer CropScience (Pvt.) Limited
Head Office: Plot No. 23, Sector 22, Knowledge Industrial Area, Karachi 74900,
