ANF - 397 RECRUITS INCLUDING 39 FEMALES PASSED OUT AFTER COMPLETION OF BASIC TRAINING

On 14th May 2016, passing out parade of Anti Narcotics Force was held at Military Training Centre. DG ANF Major General Nasir Dilawar Shah HI (M) graced the occasion as Chief Guest. A batch of 397 ANF recruits including 39 females passed out after Basic Training of 5 months. The occasion was attended by high ranking Military & Civil Officers, Heads of LEAs Institutions, Foreign Dignitaries / Diplomats, Representatives from Related Departments, Relatives of Recruits and Media Persons.

While addressing the occasion, DG ANF congratulated the recruits and their relatives and expected high-hopes for their future assignments. He thanked Pakistan Army for making the training centre available and provision of quality training to ANF. DG's Cane was awarded to over all best recruit SI Hafiz Tajwar Hayat and Commandant ANF Academy Medal to ASI Hira Hussain.

In recent past, ANF carried out fresh recruitment of 55 Sub-Inspectors, 52 ASIs and 290 Constables, including 39 females. Giving top priority to training; ANF sought assistance of Pakistan Army for a comprehensive and objective training at Azad Kashmir Regimental Centre, Mansar Camp, Attock. Military cooperation included training in fields of Drill, Physical Training, Firing, Weapon Handling, Un-armed Combat, Field Craft, Security, Survival Techniques, Raids at inhabited Areas and Response to Impromptu Situations. ANF Faculty remained hand-in-glove with Military Instructors and imparted training in the fields of Criminal Law, Police Rules, Criminal Investigation, Police Station Administration, Narcotics Studies, Human Rights, Regional Ethics and Service Rules.

On special directive of DG ANF, recruit training was designed to transform new inductees into quality LEAs, both in professional and moral stature. Special emphasis was laid on character building, discipline, dress / turn-out and devotion to duty. Pre-course formalities included preparation of a thoroughly deliberated curriculum. Theoretical discourse was appropriately followed by practical exercises. Emphasis was laid to confront crises situations, necessitating its independent handling. Endeavor was also made to polish the physical and mental abilities, commensurating with contemporary field requirements. Induction of young blood in the Force is being augmented with focused positioning, that is, "Right Man for the Right Job".

ANF REGIONAL DIRECTORATE (SINDH) HOLDS 7TH DIVISIONAL NARCOTICS CONTROL COMMITTEE MEETING (DNCC)

On 1st April 2016, 7th meeting of the DNCC was held at the office of Commissioner Karachi. This forum provides opportunity for various Law Enforcement Agencies to interact and devise mutual strategies to fight the drug menace in society.

Sequel to the decisions taken in Divisional Narcotics Control Committee (DNCC), Local Police, District Administration and Excise Taxation & Narcotics Department started campaigning against Street Peddlers, Gutka Shops and Sheesha Bars. During the campaign in April, 360 cases were registered and 426 individuals apprehended. In addition RD Sindh has delivered awareness lectures at different schools and colleges to sensitize youth on the harmful effects of drug addiction.

Following DNCC meeting, ANF (Sindh) organized a special meeting to coordinate counter narco strategies. Participants of this meeting included; Commissioner Karachi, DIG Police, Representative Excise Taxation & Narcotics Department headed by Force Commander RD ANF Karachi. All the departments assured their full support for the noble cause of making Pakistan a “Drug Free Society”. ANF Sindh has also nominated focal persons for coordination with Deputy Commissioner and local authorities at district level.

CASE STUDY - A DRUG PATIENT AT MATRC (KCI)

AWARENESS DEFEATED ADDICTION

Arsalan Ahmed, a 23 year old boy is under treatment at the MATRC Karachi for the last 3 weeks. He is B.Com student. Previously, his hometown was Sajawal (Sindh), which was located in flood-prone area. Consequently, ten years back his family shifted to Thatha. His family includes a mother (retired nursing superintendent), an elder sister (married) and another sister (un-married), while his father had already passed away.

Few years back, his family was displaced due to floods and was staying at IDP Camp. Under these circumstances the parents obligation to supervise the children literally collapses, hence Arsalan got ample chance to mix up with bad community, unobserved from his family and finally due to peer pressure, he indulged in drugs. He started abusing with prescription drugs, later got into heroin and finally also started alcohol.

Initially he managed to keep his addiction habit discrete, but medical-literate mother picked up the symptoms very soon. Differing with the family, Arsalan developed an arrogant behavior towards his family members. Contrary to rest of the family, his mother adopted a soothing behavior towards him. She started converting his addiction from drugs to alcohol and used to give Rs 400 for liquor. Meanwhile she also started giving him Rs 100 to buy his exclusive syringes, so as to avoid any blood born disease. Often during receptive-mode, his mother also used to motivate him for a healthy life.

At last, the supportive attitude, awareness and inspiration of the mother worked, resulting in getting treatment and quit the unhealthy life. During Arsalan's addiction period her mother being nursing superintendent, had already surveyed the Drug Treatment Centers of Sindh, through her colleagues. She preferred MATRC Karachi, not only in professional management but also providing free of cost Treatment, Feeding, Boarding / Lodging facilities.

Today Arsalan has already completed his detoxification period and is undergoing recovery under professional psychologists. During the family sessions, it was significantly observed that except his mother, all other family members need extensive psychologist sessions. The limelight factor bringing the child out of drug dilemma is just one family member (mother) having "Awareness about Drugs", whereby she maintained her confidence in child, provided money to abstain from extra evils and slowly convincing for full recovery.

This case is unique in its nature, whereby a medical-literate single parent living in far-flung locality of Sindh, used her acumen and tolerantly stood-up against son's addiction, prudently against family attitude and wisely in exploring treatment services. Though, another big challenge remains, that is, rehabilitation of Arsalan to his hometown, especially under prevailing environments. However, there is sufficient rational to believe that in presence of his mother, Arsalan will have quite ease to sail through the prevailing society with the words in heart-n-mind "Say No to Drugs".

Note: *Photo of the patient is intentionally not being published, due to social implications.*

UPDATE - MATRC KARACHI

Model Addiction, Treatment and Rehabilitation Center (Karachi) is operating on self-help basis / donor funding since 2010. This center is located at Layari. It is 55 bedded treatment hospital for the addict patients. Up till now this hospital has treated 3253 patients. Like other ANF hospitals, it is also providing free treatment, feeding, boarding & lodging facilities to its patients.

Based on the quality treatment of MATRC, public demand rose for establishment of Female & Child Addict Treatment Ward. Responding to the genuine public need, ANF took on board Sindh Government and started construction of 24 bedded Female Addiction Ward and 24 bedded Child Addiction Ward, just adjacent to already existing MATRC building.

Earth breaking ceremony of the project was carried out on 18th Oct 2015. Up till now, roof of ground floor has been laid. Expectedly the construction work will complete by end 2016.

Under construction building of Female & Child Ward of MATRC Karachi

UPDATE - MATRC PESHAWAR

ANF is endeavoring to establish at least one Model Addict Treatment Center (MATRC) at all provincial capitals of the country. In this regard ANF has taken KPK Government on board, and is in the process of establishing 100 bedded addict treatment hospitals.

MATRC Peshawar is being constructed on an area of 5 Kanals at Pajaggi Road, Bashirabad, Peshawar. At present grey structure of ground floor has completed, while columns for 1st floor are under construction. Civil works of the building is expected to complete in year 2016, however its furnishing may exceed to 1st quarter of year 2017. Once completed, it will be the biggest drug treatment hospital of ANF.

Under construction building of MATRC Peshawar
