HQ ANF**VISIT – MARRY KATIE STANA, DIRECTOR INL-P**

On 7th September 2016, Director INL-P, Marry Katie Stana visited HQ ANF. It was her first visit and meet with DG ANF, after assuming the charge of Director INL-P. During the meeting it was agreed upon to further strengthen the bilateral ties between ANF & INL-P on different aspects of professional matters.

Visit - Marry Katie Stana Director (INL-P) to HQ ANF – 7 Sep

VISIT – MR. CESAR GUEDES, COUNTER HEAD UNODC

On 7th September 2016, UNODC country head Mr. Cesar Guedes visited HQ ANF. He had an exclusive meeting with DG ANF. During the meeting different aspects of mutual interest were deliberated upon.

Mr. Cesar Guedes Country Head, UNODC call on DG ANF – 7 Sep

BRIEFING – DESIGNATED DEFENSE ATTACHES

On 6th September 2016, a briefing was organized at the HQ ANF for designated Defense Attaches. Brigadier Naveed Azam Cheema (Designated Defense Attache, Ukraine), Brigadier Muhammad Asim Khan (Designated Defense Attache, Australia), Brigadier Shakil Faridi (Designated Defense Attache, Kazakhstan) and Brigadier Shahzad Iftikhar Bhatti (Designated Defense Attache, Libya) were amongst the delegation. Joint Director (Enforcement) Lt Colonel Nisar Ahmad Mughal welcomed the guests and briefed them about the prevailing drug environments and challenges to ANF. Moreover, threats to Pakistan as a transit and victim country were amply highlighted. They were also apprised about the mechanism in place to curb the drug trafficking. Officers also visited the display room at the HQ, and briefed about the most common concealment methods in use by drug traffickers.

Briefing - Designated Defense Attaches – 6 Sep

VISIT – UNODC REPRESENTATIVES

On 2nd September 2016, UNODC representatives Colonel Sajid & Syed Arslan visited HQ ANF. ANF staff attending the conference included COS Brigadier Muhammad Basharat Tahir Malik, Director International Cooperation, Colonel Zaheer Ahmad and Major Nadeem Abbas. During the meeting different aspects were evaluated of various initiatives/ projects being implemented with the support and collaboration of UNODC. The UNODC representatives expressed satisfaction over the progress and reassured their full support in future as well.

Visit - UNODC Rep Colonel Sajid and Syed Arslan to HQ ANF – 2 Sep

ANF TREATMENT & REHABILITATION FACILITIES **NEW ESTABLISHMENTS & EXPANSIONS**

ANF is vigorously perusing its efforts for Drug Treatment & Rehabilitation facilities, which provides free of cost boarding, lodging and treatment to needy drug addict patients. In this regard substantial advancements have been made, most of which will be effective by end of current year.

100 bedded MATRC (Peshawar) is being established with the cooperation of KP Government. Grey structure has been completed and at present tiling of ground and 1st floor is underway.

MATRC Peshawar - Grey Structure Completed

Tiling of Ground and 1st floor

55 bedded MATRC (Karachi) is being supplemented with 48 bedded Female and Juvenile Treatment Ward, hence making a capacity of 103 patients in total. At present shuttering of 1st floor has been removed and Door Frames of ground floor are being fixed.

Shuttering of 1st Floor Removed

Door Frames of Ground Floor Being Fixed

Government of Sindh has principally approved establishment of MATRC Sukkur and necessary coordination for selection of government building is underway. MATRC (Sukkur) is in the final stage of its establishment. It will provide treatment facilities to people of interior Sindh, who normally are reluctant to travel up till Karachi.

A proposal is in hand for construction of MATRC (Lahore), for which PC-1 is in the process of finalization. In order to speed up its establishment and operationalization, efforts are in hand to take the provincial government on board.

MATRC (Islamabad) is providing its services to drug addicts of the region, whereas MATRC (Quetta) is in the process of hiring a new building.

ANF HOLDS CONFERENCE OF REGIONAL HEADS
NABING OF PROCLAIMED OFFENDERS REMAINED TOP PERORITY

Conference of Regional Heads of ANF – 6 Oct

On 6 October 2016, ANF organized Force Commanders Conference at HQ ANF. Director General ANF Major General Nasir Dilawar Shah chaired the Conference. It was attended by Commanders of all Regional Directorates and Senior Staff Officers.

During the conference, Director General conveyed explicit instructions to vigorously expedite the ongoing countrywide special drive for apprehension of Proclaimed Offenders and bringing them to justice. The participants of conference also included newly assigned officers, to whom the aspects of Enforcement, Intelligence, Assets Investigation, Prosecution, Financial-cum-Administrative matters and capacity-building were briefed. Emerging trend in high society for abuse of synthetic drugs, underlined as grave threat requiring special measures. In the later part of meeting, futuristic goals set-forth for each region were assigned to respective commanders.

In pursuance of Proclaimed Offenders, ANF has granted top priority in its ground operations. In this regard, 2 special conferences of ANF Operational Heads have already taken place at HQ ANF, which aimed for focused execution, effective coordination and periodic monitoring in accomplishment of the mission.

All these endeavors concluded in apprehension of 176 proclaimed offenders in 5 months, out of which 25 were arrested from KP, 19 from North Region, 63 from Punjab, 30 from Sindh and 39 from Balochistan. It is first ever special drive in ANF history. It has not only brought the criminals to justice, but has also proved useful in creating a caution in general about drug crimes.

ANF - INSTALLED LATEST SCANNERS AT AIRPORTS

Inauguration ceremony of latest body-scanners took place at Benazir Bhutto International Airport Islamabad on 7 Oct 2016. The ceremony was attended by Secretary Narcotics Control Division Mr Ajaz Ali Khan, Director General ANF Major General Nasir Dilawar Shah, DLO Saudi Arabia Mr Fawaz Saud Alotaibi, COS ANF Brigadier Muhammad Basharat Tahir Malik, Force Commander ANF RD North Brigadier Hamad Dogar, Airport Manager Mr Amam Ullah Alvi, Senior Joint Director Civil Aviation Authority Mr Naeem Ahmed Khan and representatives of other Airport Agencies. The event marked simultaneous operationalisation of drug scanners at Benazir Bhutto International Airport at Islamabad, Allama Iqbal International Airport at Lahore and Jinnah International Airport at Karachi.

While talking at the occasion, Secretary NCD reiterated affirmation of Pakistan Govt of zero-tolerance against drugs. Further he told that the latest technology will be a great help in “Clean Travel” of passengers from Pakistan to all countries of world. DG ANF apprised that ANF made special arrangements for training of their Airport staff under the supervision of manufacturer-experts at respective operational sites. He also told that during training, 2 cases of ingested capsules have been detected and cases registered. DG ANF affirmed his endeavors in capacity building of ANF. Special gratitude was paid to CAA for their cooperation & assistance at Islamabad Airport.

These scanners have been manufactured by a British company named “Braun” and donated by Government of KSA. The deployment of these machines will substantially increase operational efficiency of ANF. The machine has latest technology and its trials have proved it to be more efficient, dependable, user friendly and congenial to passengers. It just takes 7 seconds to scan a passenger by machine; however some more time is required for registration of passenger-data in software. The machine gives full-body view and abdominal view simultaneously.

The body scanners resemble walk-through-gates, which will make it possible to detect drugs, ingested material or concealed items under fabrics. The scanners aren't hazardous and will not disturb any kind of privacy of the passengers. The significant aspect of these scanners is that it is just not the repetition of scanning system being practiced by other Law Enforcement Agencies at airport.

Installation of Latest Scanners at Airports

ANF CANINE BREEDING CENTRE

In 1998, sniffing-dogs were inducted in ANF for the first time. Initially trained dogs and its handlers were procured from Pakistan Army, however later on dogs were periodically supplemented through civil resources and friendly countries. Presently, ANF is having an operational taskforce of drug detecting unit, employed at all International Airports, Seaports, Dry Ports and entry / exit land routes of country.

In early 2014, plan to establish ANF Breeding & Training Centre was chalked out, initially at a limited scale. It was basically aimed on self-production of Canine assets. This initiative proved exceptionally productive, cost effective and model training centre for dogs as well as handlers. ANF Canine Breeding and Training Centre predominantly hold Labradors, as per following:-

Facet	Initial Stock (For Operations)	Parent Stock (Breeding Centre)		Breeding Centre Production		Total Held	Future Requirement
		Adult Male	Adult Female	Supplied to RDs	New Pups at HQ ANF		
ANF Breeding Cell at HQ ANF	-	4	9	-	20	33	20
RD North	4	-	-	8	-	12	13
RD Punjab	10	-	-	6	-	16	14
RD Sindh	15	-	-	4	-	19	9
RD Balochistan	5	-	-	4	-	9	13
RD KPK	7	-	-	2	-	9	11
Total	41	4	9	24	20	98	80

Study is in hand to supplement existing canine assets with Belgian Malinois breed. It is considered robust having sustained stamina to work, however due to a little aggressive nature may be more suitable for luggage terminals, sea ports & dry ports.

ANF Canine Unit is being run by a core-team of 1 specialist vet along with 6 trained staff, all seconded from army. ANF has also started inducting its own canine staff and at present holds 9 ANF carder dog handlers. After initial training the staff is posted at different sites throughout country.

CASE STUDY

PATIENT AT MATRC (KARACHI)

Baroze Khan a 26 years young man is getting treatment at MATRC Karachi. He hails from Peshawar, however since 2005 settled at Liaqatabad, Karachi along with his parents and five siblings. He is married having two sons and one daughter. Baroze is a labor contractor, having an average monthly income of Rs 35000.

Baroze received just middle standard education. His professional engagements involve frequent interaction with laborers. Since there are limited opportunities of recreation for lower class, so as a relief from hardships there is very likelihood of such people getting involved in drugs. Baroze Khan was no exception to it, so as a pastime with peers, he got involved in drug addiction. He was only 19 when he first used the drugs. Initially his friends used to provide him drugs, later he managed from his own resources; however afterwards he also started to beg or steal money for drugs. He used to spend Rs 200-300 daily for addiction needs. With the passage of time his business & health deteriorated. Most of his associates also started avoiding him and meanwhile he also tried to commit suicide. This was the time his family came to know about his addiction habit. His mother started providing him money for the drugs, as an assurance of his life. He had been using Hashish for more than 5 years and heroine for 3 months, twice a day. During this time, Baroze's father admitted him in private drug treatment centers, but since he was not willing, so was immediately followed by relapse.

The turning point of his life came once Baroze started feeling that his 9 years old son has started smoking cigarettes. He became highly disturbed and asked people for son's recovery from smoking. Most of his relatives attributed his own negligence towards his family, as the main cause of his son's involvement. Once he tried to impose strict restrictions on his son, he left the house. After great efforts of three months, he recovered his son working as a waiter at a small restaurant on main road. This jolt molded his thinking against addiction and he started asking help to quit drugs. Baroze father arranged his admission at MATRC Karachi and at present he is in 4th week of treatment. Baroze is completely satisfied with the treatment protocols at MATRC.

Baroze is still is highly conscious of his son's indulgence in smoking, which can be easily overcome by proper care and attention of parents. After initial treatment he has started feeling the pain & agony under which his parents had undergone during his addiction period. Hopefully, his own determination against drugs will pave a better life of his own as well as his son.

Note: *Photo of the patient is not being published owing to social implications.*

SPECIAL DRUG BURNING CEREMONY - 59.8 TONS OF DRUGS DESTROYED

On 5 Sep 2016, ANF RD Balochistan held a Special Drug Burning Ceremony at Quetta. The drug burning became inevitable due to non-availability of space at Malkhana for further storage of drugs at PS RD Quetta. Therefore, special drug burning was organized to create space for seizures. A total quantity of seized drugs weighing 59.823 Tons was destroyed in this ceremony. The destroyed drugs included 4.530 Ton Heroin, 30.411 Ton Hashish, 16.381 Ton Opium, 2.769 Ton Morphine, 2.41 Ton Acetic Anhydride, 1.974 Ton Amphetamine and 1.349 Ton Ammonia Spirit.

Mr. Allah Dad Roshan, Judge CNS Court was the Chief Guest of the event. Other participants included Force Commander Balochistan (ANF). Annual drug burning ceremony will be held as per its normal schedule during month of October.

INTERNATIONAL COOPERATION DIRECTORATE (INTL COOP DTE)

Being a global issue, there are numerous international, multilateral and bilateral organizations / coordinating bodies which are dealing with the counter drugs issues and related aspects. Pakistan is an established and well respected partner in a number of such bodies. Pakistan's views, opinions, analysis and inputs on counter drugs issues are considered credible and are widely respected. Representations in, and interaction with such fora not only projects the strong resolve of Government of Pakistan against the menace of drugs but also helps in disseminating our efforts and achievements which attract keen interest of the relevant international audience. Important counter narcotics fora / organizations are as under-

1. Commission on Narcotics Drugs (CND) including its Reconvened Sessions – 53 x member states.
2. Sub-Commission on Illicit Drug Trafficking and Related Matters in the Near and Middle East – 23 x member states.
3. Head of National Drug Law Enforcement Agencies, Asia & Pacific (HONLEA) – 53 x member states.
4. SAARC Committee on Drug Trafficking / Drug Abuse – 8 x member states.
5. Paris Pact Initiative – 63 x member states.
6. Quintet Forum (Afghanistan, Pakistan, Russian Federation, Tajikistan, & Iran).
7. Triangular Initiative (Afghanistan, Iran and Pakistan)
8. International Drug Enforcement Conference (IDEC) – 84 x member states
9. Economic Cooperation Organization (ECO) – 10 x member states:-
 - (1) Senior Officials Meeting on Drug Control
 - (2) Meetings of the Chiefs of Police of Anti Narcotics Force
10. Conference of Interaction and Confidence Building Measures in Asia (CICA) in the area of Drug Control – 20 x member states.
11. Colombo Plan – 25 x member states.
12. Bilateral engagements with important countries like USA, China, Russian Federation, Saudi Arabia, UAE, Kuwait and UK.
13. Interaction with following important international organizations-
